Ref.: Confederação Brasileira de Basketball in Brazil 14 August 2023

To Whom it may concern,

FIBA - International Basketball Federation has developed 3x3 as a stand-alone discipline, that has been included in the Olympic Programme by the IOC. 3x3 is a simplified version of basketball, played on a half-court with one hoop only and three players a side.

FIBA 3x3 is based on an integrated 3x3 Competition Network (http://play.fiba3x3.com) that connects all FIBA-endorsed 3x3 events worldwide. Any event organizer is welcome to organize FIBA-endorsed 3x3 events and become part the FIBA 3x3 Competition Network.

Please note that qualification to FIBA 3x3 Official Events is based on the 3x3 Federation Ranking, hence the activity of any 3x3 organiser will benefit the qualification chances of the respective country.

FIBA monitors all FIBA-endorsed 3x3 activities through play.fiba3x3.com; our records show for the event organiser **Confederação Brasileira de Basketball**:

- Registration Date: 26 August 2012
- Players captured since registration: a total of 5,184 unique players
- Activity in last 12 months: 12 events for a total of 1,190 confirmed players that have played an average of 1,190 games
- Volume in Brazil: the activity represents 17% of all generated ranking points by confirmed players

Any support offered to FIBA 3x3 will be much appreciated by FIBA and will help to further develop 3x3, that is already the number one urban team sport in the world.

For further information on the content of this letter or regarding 3x3 in general, please check http://fiba3x3.basketball or email to 3x3@fiba.basketball.

Robert Rieblinger
FIBA 3x3 Development Manager
